HOW TO USE SECTION FILES

Object Oriented Programming

1. After you download section files, you will get a folder composed of 3 parts.

- 📁 00) First Steps
- 📁 01) Basic Computation
- 📁 02) Flow of Control Branching
- 📁 03) Flow of Control Loops
- 📁 04) Arrays
- 📁 05) Methods and Recursion
- 📁 06) Classes and Methods
- 📁 07) More About Objects and Methods
- 📁 08) Inheritance, Polymorphism and Interf...
- 📁 09) More About Inheritance, Polymorphis...
- 📁 10) Exception Handling

2. First part is the problem slides, the second another folder containing solutions and the third is assignment file.

- 📁 Basic Computations Solutions
- 📊 Basic Computation Assignment
- 📊 Basic Computation Problems

**3. After you open solutions folder, you will get a project folder for each problem numbered based on problem slides file.**

📁 01) Average

📁 02) Two Strings

📁 03) Monthly Mortgage Payment

📁 04) Digit Per Line

📁 05) Char Per Line

📁 06) Fahrenheit to Celsius

📁 07) Change Hate to Love

📁 08) Move First Word

📁 09) Enter Favorite

📁 10) Vending Machine

4. For example: if you want to open 01) Average project files, open you IDE (IntelliJ IDEA) then click on file and choose open.

5. Navigate to the path in which the project files stored then click on OK.
